

## **BVS ELITE 3 AIR-SCRUBBER AND DUST COLLECTOR**

The indispensable air scrubber and dust collector

The BVS ELITE 3 is ideal for the following work:

- Duct Cleaning
- Mould abatement
- Asbestos abatement
- Construction sites, which requires special air filtration
- Fire restoration
- Anthrax and viruses
- Odor neutralization

**Unique variable speed technology : Tested and sold since the last 5 years**

- Now you need just one Neg Air Machine for every kind of job! from 0 CFM to 3,000 CFM
- Maximize efficiency of filters by adjusting motor speed.
- Adjustable air flow as to not surpass filter capacity.
- D.O.P tested

**Just plug and play**

120 -115 - 220 50 hz or 60 hz

**Patent UV system**

- The first and the only negative air scrubber and dust collector with ultraviolet capabilities.
- Ultraviolet sterilizes airborne microbial contaminants and neutralizes odours.
- Slow start from 0 to 3,000 CFM which will prevent from over loading the breakers.

**Maximum Efficiency:** the only Negative Air Machine with a non over loading fan. Machine maintains it's pull power even if filters become clogged by dust and other debris.

**Dimension:** 24" width x 30" height x 45" length

**Modular:** 2 sections

**Section:** 2 sections of 24" width x 24" length x 22.5" depth

**Weight:** 130 lbs with filters

**CFM:** from 0 to 3,000 Cubic Feet per Minute

**Motor:** 1.5 HP with variable speed

**Pressure gage**

**Ultraviolet system**

**Filter 95% + pre filter**

**HEPA FILTER certified 2,000 CFM**

**Pocket bags:**

**Extension of 50' (12 gage)**

**Flexible 14" and 12" diameter:**

**8 caster wheels**

**Air Flow: 0 to 3,000 CFM with 2" up to 4" static pressure**

**Removable cover**

120-115-220 50 hz or 60 hz
